- English

WORK EXPERIENCE

Ally Soft Solutions

Full Stack Developer Intern

Nov 2024 – Dec 2024

- Developed and optimized RESTful APIs and managed MySQL databases with Sequelize ORM on live projects.
- Built responsive UIs with React.js and Ant Design (AntD) for seamless user experiences.
- Worked on full-stack development, ensuring backend-frontend consistency in real-world applications.

EDUCATION

RK University

Bachelor of Technology in Computer Engineering – 8.47

2022 – Pursuing

Virani High School

Higher Secondary Certificate (HSC) – 63.69 %

2021 – 2022

Secondary School Certificate (SSC) – 77.16 %

2019 – 2020

PROJECT

Budget Tracker

- A web application for managing income, expenses, and balance with Doughnut chart visualization. Utilizes JWT authentication, MongoDB, and Axios for secure and efficient API communication.

Venture Connect

- Venture Connect enables startups and investors to collaborate through opportunities, events, and profile bookmarking, with a complete admin dashboard for managing users, events, and opportunities efficiently.

TextUtils

- A text manipulation tool built with React.js, offering features like text conversion (uppercase/lowercase), word/character count, removing extra spaces, copy, clear inputs, text preview, and text-to-speech. Includes light/dark theme toggle for enhanced readability.

iEducation

- A fully functional e-learning platform with courses, quizzes, and interactive learning. Admin panel for managing content, users, and quizzes, with a review system and secure Razorpay payments for quiz access.
